Welcome to the Yongsan Child Development Center! We seek to provide a safe, healthy, caring, and learning environment for the children in our care. We devote each moment of our day to the development of an environment conducive to learning. Each child is challenged to reach his or her fullest development of the **WHOLE CHILD**. We believe that children learn by first-hand experiences, by becoming involved in activities, and by playing. Play aids growth; it provides an imaginary world where children can master events that happen and provides a basis for physical development. Play is a way of learning adult roles; it is vital and essential to the survival of all humans.

A CHILD'S WORK...IS HIS/HER PLAY!

Our curriculum includes daily creative learning activities, dramatic play, cooking experiences, literacy skills, special visitors, and high-energy motor skill development.

This program is DoD-certified and accredited by the National Association for the Education of Young Children (NAEYC)

For more information, please call 738-3406/3404.

Childcare fees are determined by the Total Family Income. We provide hourly care and it is offered on a space-available basis. Part-day Preschool is offered in conjunction with the school year for children ages 3-5. Parents are encouraged to participate and become actively involved in all aspects of the program. Parent Advisory Meetings are held monthly at the CDC on the last Wednesday of the month at 1145. Bring your lunch, we'd love to see you there!
